

Hydraulic Telescopic Jack (PTJ-Series)

Model	Capacity	Stroke	Spread		Total	Outer Dia
			1 st stage	2 nd stage	Stroke	of Jack.
	tons.	mm.	mm.	mm.	mm.	mm.
PTJ-20/350	20	350	175	175	350	135
PTJ-50/350	50	350	175	175	350	170

Features /Benefits

- · Telescopic design, heat treated alloy steel body.
- · Hard chrome plated rams to resist scoring and corrosion
- · Single acting load return. High pressure long life seals.
- 'O' Ring to arrest ingress of foreign particles. Port size 3/8 inch NPT.
- · QCC with Plastic dust cap. Aluminium dust Cap on Request.

Application:

Telescopic jacks are specially designed where space is a constraint and higher stroke is desired. Ideally used for lifting of heavy machinery etc.

THE ABOVE ARE STANDARD MODELS. • CUSTOMISED CAPACITY & STROKE AVAILABLE ON REQUEST
