Model	Capacity	Jaws Closed	Jaws Open	Weight	Suitable Hand Pump
	tons.	mm.	mm.	kgs.	
HWS-8	8	6	80	7	PHP-200/2*
HWS-14	14	6	80	8	PHP-200/2*

### Features / Benefits :

- Light weight, compact, easy to use.
- Single acting spring return.
- Cylinder honed to a surface finish of 0.4 microns.
- Wedge spreaders avoid chisels, hammers, chain pulley block slings etc.
- Noiseless operation.
- Stepped blocks are provided to increase wedge opening up to 80 mm.
- 6 mm access is enough for insertion.
- Stepped arm capable of full load on each step.
- **Tandem operation for even spreading**

**⚠ Remove all nuts before operation.**
